

Reading Preparation

First of all, Thank you for trusting me with you or your loved one. I can not express how humbled & honored I am to do this work. As part of this I feel like it is my duty to let you know a few things ahead of time that will make the reading go smoother.

Here are a few things I recommend :

- Have pen & paper handy.

There will always be information that comes through that you might can't remember in the moment, so it's important to write it down in case it is remembered later on.

- Come with an open mind & heart.

When you are open to the possibilities the reading will go much smoother.

- Try to think outside the box!

Not everything that I give you will be clean cut. Spirit uses my imagination as well as symbols to get their messages to you. So, if Spirit gives me a red bird for you & your grandmother loved blue birds the importance is in the bird.

- I can't guarantee that the person you want to come through will, but you can always ask them ahead of time to come through; sometimes they will & sometimes they won't.

The funny thing about Spirit is anyone that wants to talk to you & give you encouragement can and will at times come through. Even people you don't know, like that distant Uncle you never met, but heard stories about. And just to be honest with you it is more about the need than the want. Spirit has their own ideas of what you truly need.

If you have any questions just let me know. My goal is for you to receive healing Messages from your loved one and that you leave the reading feeling better than you did when you came.

Xoxo,

Medium Carrie Wilson-An Inspired Spirit
